We know. You're excited for Spring! There's the sunshine, the blooming flowers, and that fresh air that makes your hair stand on end. You may even be thinking about a fresh new hairstyle. But we also know that you love yourself, your hair, and your current hair style. And that's what this bundle is all about: we hope to empower you to love and keep your hair, even when your hair is in need of love. The first item in this collection is a Shine and Shine Starter Kit for \$9.99, an affordable starting point for those of you who are looking for a hair routine that will get you through your Spring and Summer months. This kit includes everything you need to get started, including a 1.6 oz bottle of Aquaphor Healthy Skin Cleansing Lotion and a set of Head and Shoulders Moisture Boosting Shampoo and Conditioner. We've written a step-by-step guide on using this kit in the box below to get you going, but the gist of it is that you'll be using this combination of products for your entire hair routine. This isn't your

typical "start from the beginning" kit. Here's what you get: There's no shampoo, so just use the Head and Shoulders Shampoo and Conditioner. You'll also need a very tiny bit of Head and Shoulders Oil Control. Be sure to use a large, lukewarm hand towel and not your regular washcloth or terrycloth to soak your hair with. I'm going to take a pic of it here on my sink, just to make sure you see how it fits on my sink. You're going to need something about the same width to hold this in place. It's going to be about two thumbs width on the back. So you're going to want a few inches of space between the center of your head and the bottom of the kit. You'll just need to wrap it around your head, and you'll see it snaps in place. The head of the towel will be at the very bottom of the kit. It should be snug, but it should be able to move a little. Also, make sure you take a picture with your phone, so you know how it should look. Here's my next step: I'm going to spritz the shampoo on my hair and use it in a circular motion. When 82157476af
